

## Unpackage instruction

It is not allowed to install the printer by oneself and it will be done under the guidance of the engineer.

Carry it with care to avoid physical injuries.

At first take out the 12 pcs of screws found in the outer package.

Please do not lift the machine from the printing table.

If you identify physical damage on the shipment package, consider refusing the receipts of the shipment. Claim the damage from the shipping company and feedback to us with pictures showing clearing the damaged parts.

We value your cooperation !
